- Operated by La Piscine curriculum of Ecole 42
 - * Study 24/7 including weekend
- Maximum 250 students will be selected after this intensive 1 month training

3. Selection Details

Innovation Academy selects students with good coding skills or other necessary skills.

We are looking for the students who are eager to grow up as software developers regardless of the major. If you are also good at self-directed learning and peer learning, you are the right person of our program.

In this program, 42Seoul, you have to study and solve difficult problems by yourself and with your colleagues.

So the most important thing is your willingness to overcome difficulties by yourself.

Please apply our program with your own effort rather than any others help.

4. Benefits for students

The education space is open 24 hours 365 days.

No Tuition for 42Seoul program

5. Note for applicants

The materials of the 1 month intensive course is provided in English.

Applicants should check their eligibility before submission.

It is the responsibility of each applicant for any error or omission in the contents of the application, or any disadvantages caused by inability to contact.

If we find any false information of your application or any cheating during the online test, the admission can be cancelled even though the program is ongoing.
